

Premium Wellness Features

- 10 Red Chromo-Light Modules**
The 10 chromo-light modules feature 360 red lights for beautiful illumination & serene ambiance.
- 6 Himalayan Salt Blocks**
Create your very own salt cave with pure Himalayan salt mounted inside the sauna.
- 80 Jade Stones**
Jade is a semi-precious gemstone and natural conductor of far Infrared heat. The 80 jade stones are placed inside the sauna wood panels for added Infrared benefits.
- 5 Carbon Fiber Far Infrared Heaters (FIR)**
Carbon Infrared heaters with low EMF emissions to surround the body with soothing far Infrared heat.
- Digital LED Control Panel with Speakers**
FM Radio, Bluetooth, MP3 Player, USB Port, Speakers, & Sauna Function Controls for added luxury.
- 2 Full Spectrum Infrared Heaters (NIR)**
Near, mid, and far Infrared heat for complete penetration and a better sauna experience.
- Ceramic Mid Far Infrared Heater (M-FIR)**
Ceramic heaters located near the calves to eliminate cold spots and provide more mid & far Infrared heat to the whole body.
- 40 Tourmaline Stones**
Semi-precious tourmaline stones have the ability to emit negative Infrared ions to help cleanse the air and warm the feet.

Premium Canadian Red Cedar

Red cedar is eco-friendly, toxin-free & aromatic with a higher wood density factor and is only used in premium saunas.

The Sauna Wellness patented Photonic Sauna technology is the first to combine traditional sauna elements with infrared technology and red light therapy. In the Sauna Wellness patented photonic sauna, users can experience the relaxation and detoxification effects of a traditional sauna, the deep heat penetration of infrared technology, and the rejuvenating properties of red light therapy. The combination of these elements offers the most comprehensive wellness experience of any sauna, promoting relaxation, detoxification, pain relief, and skin rejuvenation among a host of other benefits.

SaunaWellness™ IR-PRO 10 Tri-Spectrum Infrared Heat

SaunaWellness™ IR-PRO's Infrared heat is the invisible part of the sun's light spectrum and heats the body with radiant heat. Our infrared sauna is comfortable & effective at lower temperatures (100°-150°) and differs from a traditional dry heat sauna system, which requires temperatures up to 200°.

The SaunaWellness IR-PRO's Tri-Spectrum radiant system is unique and superior amongst all commercial IR saunas. It's a holistic luxury sauna with 8 IR heaters and 3 separate IR systems. This advanced Tri-Spectrum system generates distinct wavelengths providing more effective near, mid-range and far infrared heating for faster heating and premium wellness.

Full Spectrum-Near (NIR) Infrared Heater System

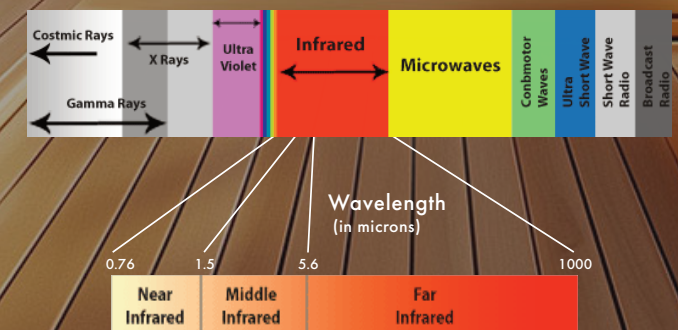

NIR heat has a shorter wave frequency & heats the top layer of the skin.

Ceramic-Mid (MIR) Infrared Heater System

MIR heat is great for total body heating.

Carbon-Far (FIR) Infrared Heater System

FIR helps raise the body temperature. Its properties help to promote a healthy, natural perspiration and holistic sweat similar to exercise.

Note: SaunaWellness IR-PRO is not a medical device, it makes no medical claims, and is not for any medical purpose. SaunaWellness IR-PRO is a general wellness product for a healthy activity and healthy lifestyle.

Why Choose **SaunaWellness™** IR-PRO Sauna?

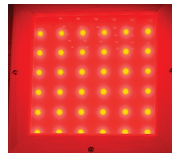

Tri-Spectrum Infrared (IR) Wavelengths Using 8 Separate Heaters.

Our exclusive Tri-Spectrum IR system allows the user to experience the benefits of 8 IR heaters with 3 separate wavelengths for far, mid, & near IR heat. Far IR Carbon Fiber Heaters are placed near the back, sides, and floor of the sauna to maintain a slow and even warmth. Far and Mid IR Ceramic Heaters are placed near the bottom of the sauna to eliminate cold spots and produce accelerated heating. Finally, Near, Mid, and Far Full-Spectrum Heaters are placed on the sides of the sauna to provide immediate warmth and to present a complete IR spectrum within the sauna.

Red Chromo-Lights

SaunaWellness™ IR-PRO has 10 red chromo-light stations to maximize the wellness experience.

Jade & Tourmaline Gemstones

are incorporated into our wellness saunas for added Infrared & time-honored wellness properties. When heated, these gemstones are known as one of the few precious stones to emit and conduct Infrared heat.

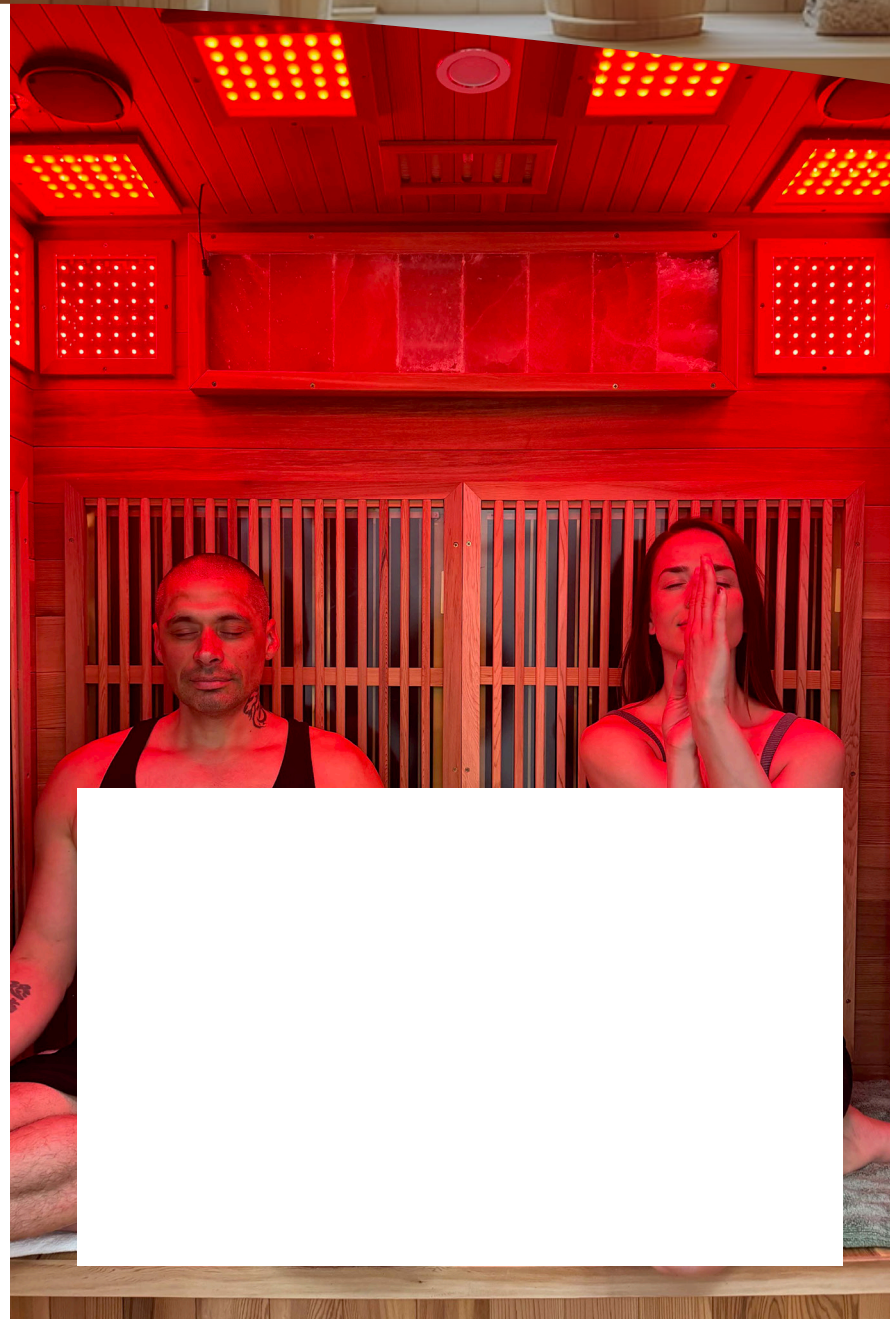

Pure Himalayan Salt System

have been integrated into each wellness sauna. Containing 84 trace elements found in the human body, salt tiles are beneficial in their ability to purify & emit negative ions into the air. Together, the salt tile systems natural elements increase the IR wellness sauna session.

SaunaWellness™ IR-PRO's multiple IR wavelengths, 10 Red Chromo-Light stations, gemstones & Himalayan salt deliver a premium wellness experience.
